

Integration of ICHM[®] with Enterprise Systems

ICHM[®] Solution

- **Diagnostic Data Infrastructure**
 - Quality Data – Sensor to Decision
 - Bandwidth mitigation
 - Wired or wireless communication
- **Open Systems Architecture for Condition-based Maintenance (OSA-CBM)**
 - ISO13374 Data Processing and Information Flows
 - Diagnostics and prognostics – local and enterprise decision support
- **Mission Critical Equipment Status**
 - Operator – Machine Performance
 - Management – Readiness Planning
